

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 30, 2019

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 000-49602

SYNAPTICS INCORPORATED

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

77-0118518
(I.R.S. Employer
Identification No.)

1251 McKay Drive
San Jose, California 95131
(Address of principal executive offices) (Zip code)

(408) 904-1100
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
Emerging growth company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol</u>	<u>Name of each exchange on which registered</u>

SYNAPTICS INCORPORATED AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission, or the SEC, and U.S. generally accepted accounting principles, or U.S. GAAP. Certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to SEC rules and regulations. In our opinion, the financial statements include all adjustments, which are of a normal and recurring nature and necessary for the fair presentation of the results of the interim periods presented. The results of operations for the interim periods are not necessarily indicative of the operating results for the full fiscal year or any future period. These financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2018.

The consolidated financial statements include our financial statements and those of our wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated upon consolidation.

Our fiscal year is the 52- or 53-week period ending on the last Saturday in June. Our fiscal 2019 is a 52-week period ending June 29, 2019, and our fiscal 2018 was a 53-week period ending on June 30, 2018. The fiscal periods presented in this report are 13-week and 39-week periods for the three and nine months ended March 30, 2019, respectively, and 13-week and 40-week periods for the three and nine months ended March 31, 2018, respectively. For simplicity, the accompanying condensed consolidated financial statements have been shown as ending on calendar quarter end dates as of and for all periods presented, unless otherwise indicated.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue, expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, allowance for doubtful accounts, cost of revenue, inventories, loss on purchase commitments, product warranty, accrued liabilities, share-based compensation costs, provision for income taxes, deferred income tax asset valuation allowances, uncertain tax positions, goodwill, intangible assets, investments and loss contingencies. We base our estimates on historical experience, applicable laws and regulations, and various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Foreign Currency Transactions and Foreign Exchange Contracts

The U.S. dollar is our functional and reporting currency. We remeasure our monetary assets and liabilities not denominated in the functional currency into U.S. dollar equivalents at the rate of exchange in effect on the balance sheet date. We measure and record non-monetary balance sheet accounts at the historical rate in effect at the date of transaction. We remeasure foreign currency expenses at the weighted average exchange rate in the month that the transaction occurred. Our foreign currency transactions and remeasurement gains and losses are included in selling, general, and administrative expenses in the condensed consolidated statements of operations and resulted in net losses of \$0.1 million and \$0.7 million in the three and nine months ended March 31, 2019 and net losses of \$0.3 million and \$0.8 million in the three and nine months ended March 31, 2018, respectively.

2. Revenue Recognition

Change in Accounting Policy

In May 2014, the Financial Accounting Standards Board, or FASB, issued an Accounting Standards Update, or ASU, on revenue from contracts with customers, ASU No. 2014-09, Revenue from Contracts with Customers, or the new revenue standard. The new revenue standard outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers.

We adopted the new revenue standard at the beginning of our fiscal 2019, using the modified retrospective method applied to all contracts not completed as of the adoption date. Results for reporting periods ending after our fiscal 2018 are presented under the new revenue standard, while prior reporting periods are not adjusted and continue to be reported in accordance with the previous revenue standard. Recognition of revenue has remained substantially unchanged under the new revenue standard as compared to the previous revenue standard. Accordingly, there was no adjustment to the fiscal 2019 opening retained earnings. However, due to the adoption of the new revenue standard, we reclassified certain amounts of incentive items to other accrued liabilities in our condensed consolidated balance sheet as of March 31, 2019, and presented them as part of customer obligations, from the contra accounts receivable. Such information is as follows (in millions):

Condensed Consolidated Balance Sheets

	As of March 31, 2019		
	As reported under new standard	Adjustments	Pro forma as if previous standard was in effect
Accounts receivable, net	\$ 266.8	\$ (4.8)	\$ 262.0
Total assets	1,468.6	(4.8)	1,463.8
Other accrued liabilities	99.1	(4.8)	94.3
Total liabilities and stockholders' equity	1,468.6	(4.8)	1,463.8

Condensed Consolidated Statement of Cash Flows

	Nine Months Ended March 31, 2019		
	As reported under new standard	Adjustments	Pro forma as if previous standard was in effect
Cash flows from operating activities:			
Accounts receivable, net	\$ 27.5	\$ (0.4)	\$ 27.1
Other accrued liabilities	13.6	0.4	14.0

Revenue Recognition

Our revenue is primarily generated from the sale of ASIC chips, either directly to a customer or to a distributor. Revenues are recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration we expect to receive in exchange for those goods or services. All of our revenue, except an inconsequential amount, is recognized at a point in time, either on shipment or delivery of the product, depending on customer terms and conditions. We generally warrant our products for a period of 12 months from the date of sale and estimate probable product warranty costs at the time we recognize revenue as the warranty is considered an assurance warranty and not a performance obligation. Non-product revenue is recognized over the same period of time such performance obligations are satisfied. We then select an appropriate method for measuring satisfaction of the performance obligations.

Revenue from sales to distributors is recognized upon shipment of the product to the distributors (sell-in basis). Master sales agreements are in place with certain customers, and these agreements typically contain terms and conditions with respect to payment, delivery, warranty and supply. In the absence of a master sales agreement, we consider a customer's purchase order or our standard terms and conditions to be the contract with the customer.

Our pricing terms are negotiated independently, on a stand-alone basis. In determining the transaction price, we evaluate whether the price is subject to refund or adjustment to determine the net consideration which we expect to receive for the sale of such products. In limited situations, we make sales to certain customers under arrangements where we grant stock rotation rights, price protection and price allowances; variable consideration associated with these rights is expected to be inconsequential. These adjustments and incentives are accounted for as variable consideration, classified as other current liabilities under the new revenue standard and are shown as customer obligations in Note 7 Other Accrued Liabilities. We estimate the amount of variable consideration for such arrangements based on the expected value to be provided to customers, and we do not believe that there will be significant changes to our estimates of variable consideration. When incentives, stock rotation rights, price protection, volume discounts, or price allowances are applicable, they are estimated and recorded in the period the related revenue is recognized. Stock rotation reserves are based on historical return rates and recorded as a reduction to revenue with a corresponding reduction to cost of goods sold for the estimated cost of inventory that is expected to be returned and recorded as prepaid expenses and other current assets. In limited circumstances, we enter into volume based tiered pricing arrangements and we estimate total unit volumes under such arrangement to determine the expected transaction price for the units expected to be transferred. Such arrangements are accounted for as contract liabilities within other accrued liabilities. Sales returns liabilities are recorded as refund liabilities within other accrued liabilities.

Our accounts receivable balance is from contracts with customers and represents our unconditional right to receive consideration from customers. Payments are generally due within three months upon completion of the performance obligation and subsequent invoicing and, therefore, do not include significant financing components. To date, there have been no material impairment losses on accounts receivable. There were no contract assets (i.e., unbilled accounts receivable, deferred commissions) recorded on the condensed consolidated balance sheets in the periods presented. Contract liabilities and refund liabilities were \$5.5 million and \$42.3 million, respectively, as of March 31, 2019 and \$1.1 million and \$31.6 million, respectively, as of the beginning of fiscal 2019. Both contract liabilities and refund liabilities are presented as part of customer obligations in Note 7 Other Accrued Liabilities. During the nine months ended March 31, 2019, we recognized \$0.3 million in revenue related to contract liabilities outstanding as of the beginning of fiscal 2019.

We invoice customers for each delivery upon shipment and recognize revenue in accordance with delivery terms. As of March 31, 2019, we did not have any remaining unsatisfied performance obligations with an original duration greater than one year. Accordingly, under the optional exception provided by ASC 606-10-50-14, we do not disclose revenues allocated to future performance obligations of partially completed contracts. We have elected to account for shipping and handling costs as fulfillment costs before the customer obtains control of the goods. We continue to classify shipping and handling costs as a cost of revenue. We have elected to continue to account for collection of all taxes on a net basis.

We incur commission expense that is incremental to obtaining contracts with customers. Sales commissions (which are recorded in the selling, general and administrative expense line item in the condensed consolidated statements of operations) are expensed when the product is shipped because such commissions are owed after shipment.

Revenue from contracts with customers disaggregated by geographic area based on customer location and groups of similar products is presented in Note 12 Segment, Customers, and Geographical Information.

3. Net Income Per Share

The computation of basic and diluted net income per share was as follows (in millions, except per share data):

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2019	2018	2019	2018
Numerator:				
Net income/(loss)	\$ 6.7	\$ (13.7)	\$ 23.3	\$ (122.6)
Denominator:				
Shares, basic	34.4	34.5	34.7	34.0
Effect of dilutive share-based awards	0.6	—	0.8	—
Shares, diluted	35.0	34.5	35.5	34.0
Net income/(loss) per share:				
Basic	\$ 0.19	\$ (0.40)	\$ 0.67	\$ (3.61)
Diluted	\$ 0.19	\$ (0.40)	\$ 0.66	\$ (3.61)

Our basic net income per share amounts for each period presented have been computed using the weighted average number of shares of common stock outstanding over the period measured. Our diluted net income per share amounts for each period presented include the weighted average effect of potentially dilutive shares. We use the treasury stock method to determine the dilutive effect of our stock options, deferred stock units, or DSUs, market stock units, or MSUs, performance stock units, or PSUs, and our convertible notes.

Dilutive net income per share amounts do not include the potential weighted average effect of 1,558,936 and 2,818,358 shares of common stock related to certain share-based awards that were outstanding during the three months ended March 31, 2019 and 2018, respectively, and 1,434,049 and 2,427,566 shares of common stock related to certain share-based awards that were outstanding during the nine months ended March 31, 2019, and 2018, respectively. These share-based awards were not included in the computation of diluted net income per share because their effect would have been antidilutive.

4. Fair Value

Financial assets measured at fair value on a recurring basis by level within the fair value hierarchy, consisted of the following (in millions):

	March 31, 2019			June 30, 2018		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Assets:						
Money market funds	\$ 309.5	\$ -	\$ -	\$ 275.2	\$ -	\$ -
Auction rate securities	-	-	-	-	-	1.5
Total available-for-sale securities	<u>\$ 309.5</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 275.2</u>	<u>\$ -</u>	<u>\$ 1.5</u>

In our condensed consolidated balance sheets, as of March 31, 2019 and June 30, 2018, money market balances were included in cash and cash equivalents and as of June 30, 2018, auction rate securities, or ARS investments, were included in non-current other assets.

During the nine months ended March 31, 2019, we converted our ARS investments to senior surplus notes, under an offering memorandum, which also included a receipt of a small amount of cash and warrants. We sold the senior surplus notes during the nine months ended March 31, 2019, resulting in a gain of \$2.8 million. There were no transfers in or out of our Level 1, 2, or 3 assets during the nine months ended March 31, 2019 and 2018.

The fair values of our accounts receivable and accounts payable approximate their carrying values because of the short-term nature of those instruments. Intangible assets, property and equipment, and goodwill are measured at fair value on a non-recurring basis if impairment is indicated.

5. Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or net realizable value and consisted of the following (in millions):

	March 31, 2019	June 30, 2018
Raw materials and work-in-progress	\$ 121.8	\$ 105.0
Finished goods	31.3	26.2
	<u>\$ 153.1</u>	<u>\$ 131.2</u>

We record a write-down, if necessary, to reduce the carrying value of inventory to its net realizable value. The effect of these write-downs is to establish a new cost basis in the related inventory, which we do not subsequently write up. We also record a liability and charge to cost of revenue for estimated losses on inventory we are obligated to purchase from our contract manufacturers when such losses become probable from customer delays, order cancellations, or other factors.

6. Acquired Intangibles and Goodwill

Acquired Intangibles

The following table summarizes the life, the gross carrying value and the related accumulated amortization of our acquired intangible assets as of March 31, 2019 and June 30, 2018 (in millions):

	Weighted Average Life in Years	March 31, 2019			June 30, 2018		
		Gross Carrying Value	Accumulated Amortization	Net Carrying Value	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
Display driver technology	5.3	\$ 164.0	\$ (140.2)	\$ 23.8	\$ 164.0	\$ (116.5)	\$ 47.5
Audio and video technology	5.3	138.6	(42.5)	96.1	133.9	(22.8)	111.1
Customer relationships	4.1	81.8	(47.1)	34.7	81.8	(38.5)	43.3
Fingerprint authentication technology	4.7	47.2	(47.2)	-	55.7	(53.7)	2.0
Licensed technology and other	4.2	7.7	(3.1)	4.6	9.0	(3.0)	6.0
Patents	8.1	4.4	(1.9)	2.5	4.6	(1.7)	2.9
Tradename	7.0	1.8	(0.4)	1.4	1.9	(0.2)	1.7
Backlog	-	-	-	-	0.5	(0.5)	-
In-process research and development	Not applicable	-	-	-	4.7	-	4.7
Acquired intangibles, gross	4.4	<u>\$ 445.5</u>	<u>\$ (282.4)</u>	<u>\$ 163.1</u>	<u>\$ 456.1</u>	<u>\$ (236.9)</u>	<u>\$ 219.2</u>

The total amortization expense for the acquired intangible assets was \$18.1 million and \$18.7 million for the three months ended March 31, 2019 and 2018, respectively, and \$56.1 million and \$62.0 million for the nine months ended March 31, 2019 and 2018, respectively. During the three months ended March 31, 2019 and 2018, \$15.2 million and \$17.2 million, respectively, and \$47.3 million and \$53.4 million for the nine months ended March 31, 2019 and 2018, respectively, of amortization expense was included in our condensed consolidated statements of operations in cost of revenue; the remainder was included in acquired intangibles amortization.

The following table presents expected annual fiscal year aggregate amortization expense as of March 31, 2019 (in millions):

Remainder of 2019	\$ 18.3
2020	51.4
2021	37.5
2022	32.9
2023	20.4
2024	2.5
Thereafter	0.1
Future amortization	<u>\$ 163.1</u>

Goodwill

Goodwill represents the excess of the purchase price over the fair value of net tangible and identifiable intangible assets acquired. There were no changes in our goodwill balance for the nine months ended March 31, 2019.

7. Other Accrued Liabilities

Other accrued liabilities consisted of the following (in millions):

	March 31, 2019	June 30, 2018
Customer Obligations	\$ 47.8	\$ 26.4
Inventory obligations	30.1	28.8
Warranty	4.0	5.5
Other	17.2	19.0
	<u>\$ 99.1</u>	<u>\$ 79.7</u>

Our customer obligations included \$5.5 million of contract liabilities and \$42.3 million of refund liabilities as of March 31, 2019, each as defined under revenue recognition guidance in the new revenue standard (see Note 2 Revenue Recognition). We reclassified certain amounts of incentive items to other current liabilities in our condensed consolidated balance sheet as of March 31, 2019, and presented them as part of customer obligations, from the contra accounts receivable due to the adoption of the new revenue standard.

8. Indemnifications, Contingencies and Legal Proceedings

Indemnifications

In connection with certain agreements, we are obligated to indemnify the counterparty against third party claims alleging infringement of certain intellectual property rights by us. We have also entered into indemnification agreements with our officers and directors. Maximum potential future payments under these agreements cannot be estimated because these agreements generally do not have a maximum stated liability. However, historical costs related to these indemnification provisions have not been significant. We have not recorded any liability in our condensed consolidated financial statements for such indemnification obligations.

Contingencies

We have in the past, and may in the future, receive notices from third parties that claim our products infringe their intellectual property rights. We cannot be certain that our technologies and products do not and will not infringe issued patents or other proprietary rights of third parties.

Any infringement claims, with or without merit, could result in significant litigation costs and diversion of management and financial resources, including the payment of damages, which could have a material adverse effect on our business, financial condition, and results of operations.

9. Debt

Convertible Debt

Our convertible debt consists of an original \$525 million aggregate principal amount of 0.50% convertible senior notes due 2022, or the Notes, which were issued in a private placement transaction. The net proceeds from the Notes, after deducting discounts, were \$514.5 million.

The Notes bear interest at a rate of 0.50% per year, which is payable semi-annually in arrears, on June 15 and December 15 of each year. The Notes are senior unsecured obligations and rank senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the Notes; equal in right of payment to any our liabilities that are not so subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities (including trade payables) of our subsidiaries.

The Notes mature on June 15, 2022, or the Maturity Date, unless earlier repurchased, redeemed or converted.

Holders may convert all or any portion of their Notes, in multiples of \$1,000 principal amounts, at their option at any time prior to the close of business on the business day immediately preceding March 15, 2022 under certain defined circumstances.

On or after March 15, 2022 until the close of business on the business day immediately preceding the Maturity Date, holders may convert all or any portion of their Notes, in multiples of \$1,000 principal amounts, at the option of the holder. Upon conversion, we will pay or deliver, at our election, shares of common stock, cash, or a combination of cash and shares of common stock.

The conversion rate for the Notes is initially 13.6947 shares of common stock per \$1,000 principal amount of Notes (equivalent to an initial conversion price of approximately \$73.02 per share of common stock). The conversion rate is subject to adjustment in certain circumstances.

Upon the occurrence of a fundamental change (as defined in the Notes indenture), holders of the Notes may require us to repurchase for cash all or a portion of their Notes at a fundamental change repurchase price equal to 100% of the principal amount of the Notes to be repurchased, plus accrued and unpaid interest up to, but excluding, the fundamental change repurchase date.

We may not redeem the Notes prior to June 20, 2020. We may redeem for cash all or any portion of the Notes, at our option, on or after June 20, 2020, if the last reported sale price of our common stock, as determined by us, has been at least 130% of the conversion price then in effect for at least 20 trading days (whether or not consecutive) during any 30 consecutive trading day period (including the last trading day of such period) ending on, and including, the trading day immediately preceding the date on which we provide notice of redemption at a redemption price equal to 100% of the principal amount of the Notes to be redeemed, plus accrued and unpaid interest up to, but excluding, the redemption date. Our policy is to settle the principal amount of our Notes with cash upon conversion or redemption.

As of the issuance date of the Notes, we recorded \$82.1 million of the principal amount to equity, representing the debt discount for the difference between our estimated nonconvertible debt borrowing rate of 4.39% and the coupon rate of the Notes of 0.50% using a five-year life, which coincides with the term of the Notes. In addition, we allocated the total of \$11.1 million of debt issuance costs, consisting of the initial purchaser's discount of \$10.5 million and legal, accounting, and printing costs of \$579,000, pro rata, to the equity and debt components of the Notes, or \$1.9 million and \$9.2 million, respectively. The debt discount and the debt issuance costs allocated to the debt component of the Notes are amortized as interest expense using the effective interest method over five years.

The contractual interest expense and amortization of discount on the Notes for the nine months ended March 31, 2019, were as follows (in millions):

	Nine Months Ended March 31, 2019
Interest expense	\$ 2.0
Amortization of discount and debt issuance costs	13.1
Total interest	\$ 15.1

The unamortized amounts of the debt issuance costs and discount associated with the Notes as of March 31, 2019 were \$6.1 million and \$55.0 million, respectively.

Revolving Credit Facility

In September 2017, we entered into an Amendment and Restatement Agreement, or the Agreement, with the lenders that are party thereto, or the Lenders, and Wells Fargo Bank, National Association, as administrative agent for the Lenders. The Agreement terminated our prior term loan arrangement and provides for a revolving credit facility in a principal amount of up to \$200 million, which includes a \$20 million sublimit for letters of credit and a \$20 million sublimit for swingline loans. Under the terms of the Agreement, we may, subject to the satisfaction of certain conditions, request increases in the revolving credit facility commitments in an aggregate principal amount of up to \$100 million to the extent existing or new lenders agree to provide such increased or additional commitments, as applicable. Proceeds under the revolving credit facility are available for working capital and general corporate purposes. As of March 31, 2019, there was no balance outstanding under the revolving credit facility.

The revolving credit facility is required to be repaid in full on the earlier of (i) September 27, 2022, and (ii) the date 91 days prior to the Maturity Date of the Notes if the Notes have not been refinanced in full by such date. Debt issuance costs of \$2.3 million relating to the revolving credit facility will be amortized over 60 months.

Our obligations under the Agreement are guaranteed by the material domestic subsidiaries of our company, subject to certain exceptions (such material subsidiaries, together with our company, collectively, the Credit Parties). The obligations of the Credit Parties under the Agreement and the other loan documents delivered in connection therewith are secured by a first priority security interest in substantially all of the existing and future personal property of the Credit Parties, including, without limitation, 65% of the voting capital stock of certain of the Credit Parties' direct foreign subsidiaries, subject to certain exceptions.

The revolving credit facility bears interest at our election of a Base Rate plus an Applicable Margin or LIBOR plus an Applicable Margin. Swingline loans bear interest at a Base Rate plus an Applicable Margin. The Base Rate is a floating rate that is the greater of the Prime Rate, the Federal Funds Rate plus 50 basis points, or LIBOR plus 100 basis points. The Applicable Margin is based on a sliding scale which ranges from 0.25 to 100 basis points for Base Rate loans and 100 basis points to 175 basis points for LIBOR loans. We are required to pay a commitment fee on any unused commitments under the Agreement which is determined on a leverage-based sliding scale ranging from 0.175% to 0.25% per annum. Interest and fees are payable on a quarterly basis.

Under the Agreement, there are various restrictive covenants, including three financial covenants which limit the consolidated total leverage ratio, or leverage ratio, the consolidated interest coverage ratio, or interest coverage ratio, a restriction which places a limit on the amount of capital expenditures that may be made in any fiscal year, a restriction that permits up to \$50 million per fiscal quarter of accounts receivable financings, and sets the Specified Leverage Ratio. The leverage ratio is the ratio of debt as of the measurement date to earnings before interest, taxes, depreciation and amortization, or EBITDA, for the four consecutive quarters ending with the quarter of measurement. The current leverage ratio shall not exceed 3.50 to 1.00 provided that for the four fiscal quarters ending after the date of a material acquisition, such maximum leverage ratio shall be adjusted to 3.75 to 1.00, and thereafter, shall not be more than 3.50 to 1.00. The interest coverage ratio is EBITDA to interest expense for the four consecutive quarters ending with the quarter of measurement. The interest coverage ratio must not be less than 3.50 to 1.0 during the term of the Agreement. The Specified Leverage Ratio is the ratio used in determining, among other things, whether we are permitted to make dividends and/or prepay certain indebtedness, at a fixed ratio of 3.00 to 1.00. As of the end of the fiscal quarter, we were in compliance with the restrictive covenants.

10. Share-Based Compensation

Share-based compensation and the related tax benefit recognized in our condensed consolidated statements of operations were as follows (in millions):

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2019	2018	2019	2018
Cost of revenue	\$ 0.7	\$ 0.9	\$ 2.4	\$ 2.3
Research and development	8.6	10.0	25.4	28.9
Selling, general, and administrative	6.5	7.9	20.9	21.9
Total	\$ 15.8	\$ 18.8	\$ 48.7	\$ 53.1
Income tax benefit on share-based compensation	\$ 1.8	\$ 3.7	\$ 4.2	\$ 6.4

Historically, we have issued new shares in connection with our share-based compensation plans, however, treasury shares are also available for issuance. Any additional shares repurchased under our common stock repurchase program will be available for issuance under our share-based compensation plans.

Stock Options

Stock option activity, including stock options granted, exercised, and forfeited, weighted average exercise prices for stock options outstanding and exercisable, and the aggregate intrinsic value were as follows:

	Stock Option Awards Outstanding	Weighted Average Exercise Price	Aggregate Intrinsic Value (in millions)
Balance as of June 30, 2018	1,618,209	\$ 57.14	
Granted	-	-	
Exercised	(167,663)	29.34	
Forfeited	(137,323)	66.93	
Balance as of March 31, 2019	1,313,223	59.67	\$ 2.2
Exercisable at March 31, 2019	1,231,738	60.09	\$ 2.2

The aggregate intrinsic value was determined using the closing price of our common stock on March 29, 2019 of \$39.75 and excludes the impact of stock options that were not in-the-money.

Deferred Stock Units

DSU activity, including DSUs granted, delivered, and forfeited, and the balance and aggregate intrinsic value of DSUs were as follows:

	DSU Awards Outstanding	Aggregate Intrinsic Value (in millions)
Balance as of June 30, 2018	1,853,558	
Granted	1,227,652	
Delivered	(670,770)	
Forfeited	(288,773)	
Balance as of March 31, 2019	<u>2,121,667</u>	<u>\$ 84.3</u>

The aggregate intrinsic value was determined using the closing price of our common stock on March 29, 2019 of \$39.75.

Of the shares delivered, 158,868 shares valued at \$6.2 million were withheld to meet statutory tax withholding requirements.

Market Stock Units

Our Amended and Restated 2010 Incentive Compensation Plan provides for the grant of MSU awards to our employees, consultants, and directors. An MSU is a promise to deliver shares of our common stock at a future date based on the achievement of market-based performance requirements in accordance with the terms of the MSU grant agreement.

We have granted MSUs to our executive officers and other management members, which are designed to vest in three tranches with the target quantity for each tranche equal to one-third of the total MSU grant. The first tranche vests based on a one-year performance period; the second tranche vests based on a two-year performance period; and the third tranche vests based on a three-year performance period. Performance is measured based on the achievement of a specified level of total stockholder return, or TSR, relative to the TSR of the S&P Semiconductor Select Industry Index, or SPSISC Index, for grants made beginning in fiscal 2018, and relative to the Philadelphia Semiconductor Index, or SOX Index, for grants made prior to fiscal 2018. The potential payout ranges from 0% to 200% of the grant target quantity and is adjusted on a two-to-one ratio based on our TSR performance relative to the SPSISC Index TSR or SOX Index TSR using the following formula:

$$(100\% + ([\text{Synaptics TSR} - \{\text{SPSISC Index TSR or SOX Index TSR}\}] \times 2))$$

The payout for the first tranche and the second tranche will not exceed 100% and the payout for the third tranche will be calculated based on the total target quantity for the entire grant multiplied by the payout factor, based on performance for the three-year performance period, less shares issued for the first tranche and the second tranche.

Delivery of shares earned, if any, will take place on the dates provided in the applicable MSU grant agreement, assuming the grantee is still an employee, consultant, or director of our company at the end of the applicable performance period. On the delivery date, we withhold shares to cover statutory tax withholding requirements and deliver a net quantity of shares to the employee, consultant, or director after such withholding. Until delivery of shares, the grantee has no rights as a stockholder with respect to any shares underlying the MSU award.

During the nine months ended March 31, 2019, MSU activity, including MSUs granted, delivered, and forfeited, and the balance and aggregate intrinsic value of MSUs as of March 31, 2019 was as follows:

	MSU Awards Outstanding	Aggregate Intrinsic Value (in millions)
Balance as of June 30, 2018	354,726	
Granted	163,059	
Performance adjustment	(46,663)	
Delivered	(92,202)	
Forfeited	(53,115)	
Balance as of March 31, 2019	<u>325,805</u>	<u>\$ 13.0</u>

The aggregate intrinsic value was determined using the closing price of our common stock on March 29, 2019 of \$39.75. Of the shares delivered, 33,981 shares valued at \$1.3 million were withheld to meet statutory tax withholding requirements.

We value MSUs using the Monte Carlo simulation model on the date of grant and amortize the compensation expense over the three-year performance and service period on a straight-line basis. The unrecognized share-based compensation cost of our outstanding MSUs was approximately \$13.0 million as of March 31, 2019, which will be recognized over a weighted average period of approximately 1.2 years.

Performance Stock Units

Our Amended and Restated 2010 Incentive Compensation Plan provides for the grant of PSU awards to our employees, consultants, and directors. A PSU is a promise to deliver shares of our common stock at a future date based on the achievement of performance-based requirements in accordance with the terms of the PSU grant agreement.

We have granted PSUs to our executive officers and other management members, which are designed to vest in three tranches with the target quantity for each tranche equal to one-third of the total PSU grant. The grants have a specific one-year performance period and vesting occurs over three service periods with the final service period ending approximately three years from the grant date. Performance is measured based on the achievement of a specified level of non-GAAP earnings per share. The potential payout ranges from 0% to 200% of the grant target quantity and is adjusted on a linear basis with a payout triggering if our non-GAAP earnings per share equals greater than 65% of the target with a maximum payout achieved at 135% of target.

Delivery of shares earned, if any, will take place on the dates provided in the applicable PSU grant agreement, assuming the grantee is still an employee, consultant, or director of our company at the end of the applicable service period. On the delivery date, we withhold shares to cover statutory tax withholding requirements and deliver a net quantity of shares to the employee, consultant, or director after such withholding. Until delivery of shares, the grantee has no rights as a stockholder with respect to any shares underlying the PSU award.

During the nine months ended March 31, 2019, PSU activity, including PSUs granted, delivered, and forfeited, and the balance and aggregate intrinsic value of PSUs as of March 31, 2019 was as follows:

	PSU Awards Outstanding	Aggregate Intrinsic Value (in millions)
Balance as of June 30, 2018	294,541	
Granted	147,005	
Performance adjustment	1,065	
Delivered	(92,470)	
Forfeited	(54,383)	
Balance as of March 31, 2019	<u>295,758</u>	<u>\$ 11.8</u>

The aggregate intrinsic value was determined using the closing price of our common stock on March 29, 2019 of \$39.75. Of the shares delivered, 36,332 shares valued at \$1.4 million were withheld to meet statutory tax withholding requirements.

We value PSUs using the aggregate intrinsic value on the date of grant adjusted for estimated performance achievement during the performance period and amortize the compensation expense over the three-year service period on a ratable basis. The unrecognized share-based compensation cost of our outstanding PSUs was approximately \$4.6 million as of March 31, 2019, which will be recognized over a weighted average period of approximately 1.3 years.

Employee Stock Purchase Plan

Shares purchased, weighted average purchase price, cash received, and the aggregate intrinsic value for employee stock purchase plan purchases during the nine-month period ended March 31, 2019 were as follows (in millions, except for shares purchased and weighted average purchase price):

Shares purchased		258,563
Weighted average purchase price	\$	31.60
Cash received	\$	8.2
Aggregate intrinsic value	\$	1.4

11. Income Taxes

On December 22, 2017, the U.S. government enacted comprehensive tax legislation, commonly known as the Tax Cuts and Jobs Act of 2017, or the Act, which significantly reformed the Internal Revenue Code of 1986, as amended. The Act contains broad and complex changes to corporate taxation, including, in part, reduction of the U.S. federal corporate tax rate from 35% to 21%, requires companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously considered permanently reinvested, and creates new taxes on certain foreign-sourced earnings. U.S. federal tax law requires that taxpayers with a fiscal year that spans the effective date of a tax rate change to calculate a blended tax rate based on the pro rata number of days in the fiscal year before and after the effective date. As our accounting and tax year is the fiscal period ending on the last Saturday in June, our U.S. federal tax rate for fiscal 2018 was a days-weighted blended tax rate of 28.17%. For fiscal 2019 and subsequent tax years, our U.S. federal tax rate is 21%.

In fiscal 2018, we recognized a provisional tax expense of \$41.4 million, related to the tax impact of the Act, of which an expense of \$44.1 million relates to the one-time transition tax and a benefit of \$2.7 million relates to remeasurement of deferred tax at the new tax rate. The one-time transition tax is based on our post-1986 foreign earnings and profits, or E&P, which we previously excluded from U.S. income taxes as we considered such earnings to be indefinitely reinvested overseas. The one-time transition tax is applied at a 15.5% tax rate on cash assets and an 8% tax rate for other specified assets. We were able to utilize the research credit carryforward, resulting in a net one-time transition tax impact of \$11.9 million on the income tax payable. During the quarter ended December 31, 2018, based on additional analysis of technical guidance, we recognized a non-discrete tax expense of \$1.4 million, which is included in the annual effective tax rate, and a discrete benefit of \$0.2 million, both of which relate to the limitation on deduction of executive officer compensation.

Staff Accounting Bulletin 118 allows companies to record provisional amounts and recognize the effect of the tax law during a measurement period. The measurement period ended in the second quarter of our fiscal 2019. As of March 31, 2019, we have finalized our accounting for the tax impact of the Act and there were no material adjustments recorded to our provisional amounts. However, further technical guidance related to the Act, including final regulations on a broad range of topics, is expected to be issued and, as such, if our interpretation and final accounting are inconsistent with future regulations and guidance, we will recognize the impact as a discrete item in the period that such guidance is issued.

The Global Intangible Low-Tax Income, or GILTI, which is a provision under the Act, imposes a tax on foreign income in excess of a deemed return on tangible assets of foreign corporations. GILTI requires an accounting policy election of either (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current period expense when incurred, or (2) factoring such amounts into the measurement of deferred taxes. We elected to treat GILTI as a period cost and recognize the impact in the period when it is incurred.

We account for income taxes under the asset and liability method. The provision for income taxes recorded in interim periods is recorded by applying the estimated annual effective tax rate to year-to-date income before provision for income taxes, excluding the effects of significant unusual or infrequently occurring discrete items. The tax effects of discrete items are recorded in the same period that the related discrete items are reported and results in a difference between the actual effective tax rate and the estimated annual effective tax rate.

The benefit for income taxes of \$15.3 million and \$3.9 million for the three months ended March 31, 2019 and 2018, respectively, represented estimated federal, foreign, and state income taxes. The effective tax rate for the three months ended March 31, 2019 diverged from the combined U.S. federal and state statutory tax rate primarily because of foreign withholding taxes, the impact of accounting for qualified stock options, foreign deemed-paid taxes, foreign income taxed at higher tax rates, and GILTI, partially offset by the benefit of research credits, foreign tax credits and foreign-derived intangible income deduction. The effective tax rate for the three months ended March 31, 2018, diverged from the combined U.S. federal and state statutory tax rate, primarily because of the impact of the benefit of research credits and excess share-based compensation deductions, partially offset by foreign withholding taxes, nondeductible amortization, the impact of accounting for qualified stock options, and foreign income taxed at higher tax rates.

The benefit for income taxes of \$8.1 million and provision for income taxes of \$52.6 million for the nine months ended March 31, 2019, and 2018, respectively, represented estimated federal, foreign, and state income taxes. The effective tax rate for the nine months ended March 31, 2019 diverged from the combined U.S. federal and state statutory tax rate primarily because of foreign withholding taxes, the impact of accounting for qualified stock options, foreign deemed-paid taxes, foreign income taxed at higher tax rates and GILTI, partially offset by the benefit of research credits, release of reserves related to uncertain tax positions, the impact of net shortfalls in share-based compensation deduction, foreign tax credits and foreign-derived intangible income deduction. The effective tax rate for the nine months ended March 31, 2018 diverged from the combined U.S. federal and state statutory tax rate primarily because of the impact of the one-time transition tax on E&P, the impact of the reduction in the U.S. federal tax rate on our net deferred tax assets, foreign withholding taxes, nondeductible amortization, the impact of accounting for qualified stock options, and foreign income taxed at higher tax rates, partially offset by benefits from research credits.

The total liability for gross unrecognized tax benefits related to uncertain tax positions increased \$0.5 million during the nine months ended March 31, 2019, to \$25.3 million from \$24.8 million at June 30, 2018, and was included in other long-term liabilities on our condensed consolidated balance sheets. If recognized, the total gross unrecognized tax benefits would reduce the effective tax rate on income from continuing operations. Accrued interest and penalties related to unrecognized tax benefits as of March 31, 2019 were \$2.7 million; this balance increased by \$0.8 million compared to June 30, 2018. We classify interest and penalties as components of income tax expense. It is reasonably possible that the amount of the liability for unrecognized tax benefits may change within the next twelve months and an estimate of the range of possible changes includes an increase in our liability of up to \$3.9 million.

In July 2018, the U.S. Ninth Circuit Court of Appeals reversed the 2015 decision of the U.S. Tax Court in *Altera Corp. v. Commissioner* which found that the Treasury regulations addressing the treatment of stock-based compensation in a cost-sharing arrangement with a related party were invalid. In August 2018, the U.S. Ninth Circuit Court of Appeals withdrew its July 2018 opinion. The reconstituted panel has not issued an opinion on this appeal. As our tax filing position is consistent with the Treasury regulations, we determined no adjustment to our financial statements is required, however, due to the uncertainties with respect to the ultimate resolution, we will continue to monitor developments in this case.

Our major tax jurisdictions are the United States, Hong Kong SAR, and Japan. From fiscal 2013 onward, we remain subject to examination by one or more of these jurisdictions. In August 2018, we received the revenue agent's report resolving the fiscal 2014 and 2015 examination by the Internal Revenue Service with no material impact on our consolidated financial statements. Our case is pending review by the Joint Committee on Taxation, which we anticipate will conclude in June 2019. Any prospective adjustments to our unrecognized tax benefits will be recorded as an increase or decrease to income tax expense and cause a corresponding change to our effective tax rate. Accordingly, our effective tax rate could fluctuate materially from period to period.

12. Segment, Customers, and Geographic Information

We operate in one segment: the development, marketing, and sale of semiconductor products used in electronic devices and products. We generate our revenue from three broad product categories: the Mobile product market, the personal computing, or PC, product market, and the Internet of Things, or IoT, product market. We sell our products to original equipment manufacturers, or OEMs, and to contract manufacturers that provide manufacturing services to OEMs.

Net revenue within geographic areas based on our customers' locations for the periods presented was as follows (in millions):

	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2019	2018	2019	2018
China	\$ 190.0	\$ 204.9	\$ 669.5	\$ 624.6
Japan	58.4	87.6	204.9	275.9
Taiwan	47.6	53.2	185.0	156.5
Other	19.6	18.7	48.9	56.5
South Korea	13.8	15.5	45.6	49.2
United States	4.6	14.1	23.2	79.1
	<u>\$ 334.0</u>	<u>\$ 394.0</u>	<u>\$ 1,177.1</u>	<u>\$ 1,241.8</u>

Net revenue from our customers for each group of similar products was as follows (in millions):

	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2019	2018	2019	2018
Mobile product applications	\$ 204.7	\$ 244.8	\$ 741.8	\$ 799.5
PC product applications	66.2	60.2	198.7	187.2
IoT product applications	63.1	89.0	236.6	255.1
	<u>\$ 334.0</u>	<u>\$ 394.0</u>	<u>\$ 1,177.1</u>	<u>\$ 1,241.8</u>

Net revenue from major customers as a percentage of total net revenue for the periods presented was as follows:

	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2019	2018	2019	2018
Customer A	17%	17%	18%	16%
Customer B	10%	11%	*	11%
Customer C	16%	11%	14%	*

* Less than 10%

We extend credit based on evaluation of a customer's financial condition, and we generally do not require collateral. Major customer accounts receivable as a percentage of total accounts receivable were as follows:

	March 31,	June 30,
	2019	2018
Customer A	20%	13%
Customer B	19%	10%
Customer C	*	11%

* Less than 10%

13. Comprehensive Income/(Loss)

Our comprehensive income/(loss) generally consists of net income/(loss) plus the effect of unrealized gains and losses on our investments, primarily due to temporary changes in market value of certain of our ARS investments. In addition, we recognize the noncredit portion of other-than-temporary impairment on debt securities in other comprehensive income/(loss). We recognize foreign

currency remeasurement adjustments and foreign currency transaction gains and losses in our condensed consolidated statements of operations as the U.S. dollar is the functional currency of our foreign entities.

14. Restructuring Activities

In November 2017, we committed to and initiated a restructuring action intended to streamline and reduce our operating cost structure and capitalize on acquisition synergies. These costs primarily related to severance costs for a reduction in headcount, facility consolidation and related costs. In April 2018, we committed to and initiated a restructuring to close a research and development facility. These costs included employee severance and related benefits and facility closure charges. Restructuring costs related to the November 2017 and April 2018 restructuring activities were recorded to the restructuring costs line item within our condensed consolidated statements of operations and are complete as of March 31, 2019.

The restructuring liability for these fiscal 2018 initiated activities during the nine months ended March 31, 2019 were as follows (in millions):

	Employee Severance and Benefits	Facility Consolidation and Related Charges	Total
Balance as of June 30, 2018	\$ 2.2	\$ 0.1	\$ 2.3
Accruals	0.2	-	0.2
Cash payments	(2.4)	(0.1)	(2.5)
Balance as of March 31, 2019	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

In August 2018, we committed to and initiated a restructuring of our mobile fingerprint optical business. These costs primarily related to severance costs for a reduction in headcount and related costs. Restructuring costs related to the fiscal 2019 restructuring activities were recorded to the restructuring costs line item within our condensed consolidated statements of operations. These activities are complete as of March 31, 2019.

The restructuring liability for the fiscal 2019 initiated activity during the nine months ended March 31, 2019 were as follows (in millions):

	Employee Severance and Benefits
Accruals	\$ 10.4
Cash payments	(10.4)
Balance as of March 31, 2019	<u>\$ —</u>

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements and Factors That May Affect Results

This Quarterly Report on Form 10-Q for the quarter ended March 30, 2019 (this “Report”) contains forward-looking statements that are subject to the safe harbors created under the Securities Act of 1933, as amended (the “Securities Act”), and the Securities Exchange Act of 1934, as amended (the “Exchange Act”). For ease of presentation, this Report shows reporting periods ending on calendar quarter end dates as of and for all periods presented, unless otherwise indicated. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business, and can be identified by the fact that they do not relate strictly to historical or current facts. Such forward-looking statements may include words such as “expect,” “anticipate,” “intend,” “believe,” “estimate,” “plan,” “target,” “strategy,” “continue,” “may,” “will,” “should,” variations of such words, or other words and terms of similar meaning. All forward-looking statements reflect our best judgment and are based on several factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Such factors include, but are not limited to, the risks as identified in the “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Business” sections of our Annual Report on Form 10-K for the fiscal year ended June 30, 2018, and other risks as identified from time to time in our SEC reports. Forward-looking statements are based on information available to us on the date hereof, and we do not have, and expressly disclaim, any obligation to publicly release any updates or any changes in our expectations, or any change in events, conditions, or circumstances on which any forward-looking statement is based. Our actual results and the timing of certain events could differ materially from the forward-looking statements. These forward-looking statements do not reflect the potential impact of any mergers, acquisitions, or other business combinations that had not been completed as of the date of this filing.

Statements made in this Report, unless the context otherwise requires, include the use of the terms “us,” “we,” “our,” the “Company” and “Synaptics” to refer to Synaptics Incorporated and its consolidated subsidiaries.

Overview

We are a leading worldwide developer and supplier of custom-designed human interface semiconductor product solutions that enable people to interact more easily and intuitively with a wide variety of mobile computing, communications, entertainment, and other electronic devices. We currently generate revenue from the markets for smartphones, tablets, personal computer, or PC, products, primarily notebook computers, Internet of Things, or IoT, which includes devices with voice, speech and video within smart homes, and other select electronic devices, including devices in automobiles, with our custom human interface solutions. Every solution we deliver either contains or consists of our touch-, display driver-, fingerprint authentication-based-, voice and speech-, and video-semiconductor solutions, which include our chip, customer-specific firmware, and software.

Many of our customers have manufacturing operations in China, and many of our OEM customers have established design centers in Asia. With our expanding global presence, including offices in Armenia, China, Denmark, Hong Kong, India, Japan, Korea, Switzerland, Taiwan, and the United States, we are well positioned to provide local sales, operational, and engineering support services to our existing customers, as well as potential new customers, on a global basis.

Our manufacturing operations are based on a variable cost model in which we outsource all of our production requirements and generally drop ship our products directly to our customers from our contract manufacturers’ facilities, eliminating the need for significant capital expenditures and allowing us to minimize our investment in inventories. This approach requires us to work closely with our contract manufacturers and semiconductor fabricators to ensure adequate production capacity to meet our forecasted volume requirements. We provide our contract manufacturers with six-month rolling forecasts and issue purchase orders based on our anticipated requirements for the next 90 days. However, we generally do not have long-term supply contracts with our contract manufacturers. We use third-party wafer manufacturers to supply wafers and third-party packaging manufacturers to package our proprietary ASICs. In certain cases, we rely on a single source or a limited number of suppliers to provide other key components of our products. Our cost of revenue includes all costs associated with the production of our products, including materials; logistics; amortization of intangibles related to acquired developed technology; backlog; supplier arrangements; manufacturing, assembly, and test costs paid to third-party manufacturers; and related overhead costs associated with our indirect manufacturing operations personnel. Additionally, we charge all warranty costs, losses on inventory purchase obligations, and write-downs to reduce the carrying value of obsolete, slow moving, and non-usable inventory to net realizable value, to cost of revenue.

Our gross margin generally reflects the combination of the added value we bring to our OEM customers’ products by meeting their custom design requirements and the impact of our ongoing cost-improvement programs. These cost-improvement programs include reducing materials and component costs, and implementing design and process improvements. Our newly introduced products may have lower margins than our more mature products, which have realized greater benefits associated with our ongoing cost-improvement programs. As a result, new product introductions may initially negatively impact our gross margin.

Our research and development expenses include costs for supplies and materials related to product development, as well as the engineering costs incurred to design ASICs and human interface solutions for OEM customers prior to and after their commitment to incorporate those solutions into their products. We continue to commit to the technological and design innovation required to maintain our position in our existing markets, and to adapt our existing technologies or develop new technologies for new markets.

Selling, general, and administrative expenses include expenses related to sales, marketing, and administrative personnel; internal sales and outside sales representatives' commissions; market and usability research; outside legal, accounting, and consulting costs; and other marketing and sales activities.

Acquired intangibles amortization, included in operating expenses, consists primarily of amortization of customer relationship and tradenames intangible assets recognized under the purchase method for business combinations.

Restructuring costs primarily reflect severance and facilities consolidation costs related to the restructuring of our operations to reduce operating expenses. These headcount and facilities related costs were in cost of revenue, research and development, and selling, general and administrative expenses.

Interest and other expense, net, primarily reflects interest expense on our convertible notes as well as the amortization of debt issuance costs and discount on our convertible notes, partially offset by impairment recovery on investments.

Equity investment loss includes amortization of intangible assets as well as our portion of the net loss reflected under the equity method of accounting in connection with our investment in OXi Technology Ltd.

Critical Accounting Policies and Estimates

There have been no significant changes in our critical accounting policies and estimates during the three months ended March 31, 2019, compared with our critical accounting policies and estimates disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2018, with the exception to the critical accounting policy on revenue recognition. We adopted the Accounting Standards Update on revenue from contracts with customers at the beginning of our fiscal 2019 (see Note 2 Revenue Recognition to the condensed consolidated financial statements contained elsewhere in this Report).

Results of Operations

Certain of the data used in our condensed consolidated statements of operations for the periods indicated, together with comparative absolute and percentage changes in these amounts, were as follows (in millions, except percentages):

	Three Months Ended March 31,				Nine Months Ended March 31,			
	2019 (1)	2018(1)	\$ Change	% Change	2019 (1)	2018(1)	\$ Change	% Change
Mobile product applications	\$ 204.7	\$ 244.8	\$ (40.1)	(16.4%)	\$ 741.8	\$ 799.5	\$ (57.7)	(7.2%)
PC product applications	66.2	60.2	6.0	10.0%	198.7	187.2	11.5	6.1%
IoT product applications	63.1	89.0	(25.9)	(29.1%)	236.6	255.1	(18.5)	(7.3%)
Net revenue	334.0	394.0	(60.0)	(15.2%)	1,177.1	1,241.8	(64.7)	(5.2%)
Gross margin	116.0	122.9	(6.9)	(5.6%)	406.7	352.5	54.2	15.4%
Operating expenses:								
Research and development	82.6	93.7	(11.1)	(11.8%)	256.9	273.0	(16.1)	(5.9%)
Selling, general, and administrative	34.2	37.9	(3.7)	(9.8%)	103.6	115.6	(12.0)	(10.4%)

Provision/(benefit) for income taxes	(15.3)	(3.9)	(11.4)	(292.3%)	(8.1)	52.6	(60.7)	(115.4%)
Equity investment loss	(0.5)	(0.6)	0.1	16.7%	(1.3)	(1.4)	0.1	7.1%
Net income/(loss)	\$ 6.7	\$ (13.7)	\$ 20.4	148.9%	\$ 23.3	\$ (122.6)	\$ 145.9	119.0%

(1) Includes the post-acquisition results of operations from our acquisition of Conexant Systems, LLC, completed on July 25, 2017, or the Conexant Acquisition, and from our acquisition of the multimedia solutions business of Marvell Technology Group Ltd., completed on September 8, 2017, or the Marvell Business Acquisition.

Certain of the data used in our condensed consolidated statements of operations presented here as a percentage of net revenue for the periods indicated were as follows:

	Three Months Ended March 31,		Percentage Point Increase/ (Decrease)	Nine Months Ended March 31,		Percentage Point Increase/ (Decrease)
	2019 (1)	2018(1)		2019 (1)	2018(1)	
Mobile product applications	61.3%	62.1%	(0.8%)	63.0%	64.4%	(1.4%)
PC product applications	19.8%	15.3%	4.5%	16.9%	15.1%	1.8%
IoT product applications	18.9%	22.6%	(3.7%)	20.1%	20.5%	(0.4%)
Net revenue	100.0%	100.0%	0.0%	100.0%	100.0%	0.0%
Gross margin	34.7%	31.2%	3.5%	34.6%	28.4%	6.2%
Operating expenses:						
Research and development	24.7%	23.8%	0.9%	21.8%	22.0%	(0.2%)
Selling, general, and administrative	10.2%	9.6%	0.6%	8.8%	9.3%	(0.5%)
Acquired intangibles amortization	0.9%	0.4%	0.5%	0.7%	0.7%	0.0%
Restructuring costs	0.0%	0.6%	(0.6%)	0.9%	0.7%	0.2%
Operating income/(loss)	(1.1%)	(3.1%)	2.0%	2.3%	(4.3%)	6.6%
Interest and other expense, net	(1.3%)	(1.2%)	(0.1%)	(0.9%)	(1.2%)	0.3%
Income/(loss) before provision for income taxes	(2.4%)	(4.3%)	1.9%	1.4%	(5.5%)	6.9%
Provision/(benefit) for income taxes	(4.6%)	(1.0%)	(3.6%)	(0.7%)	4.2%	(4.9%)
Equity investment loss	(0.1%)	(0.2%)	0.1%	(0.1%)	(0.1%)	0.0%
Net income/(loss)	2.0%	(3.5%)	5.5%	2.0%	(9.9%)	11.9%

(1) Includes the post-acquisition results of operations from the Conexant Acquisition, completed on July 25, 2017, and from the Marvell Business Acquisition, completed on September 8, 2017.

Net Revenue

Net revenue was \$334.0 million for the three months ended March 31, 2019, compared with \$394.0 million for the three months ended March 31, 2018, a decrease of \$60.0 million, or 15.2%. Of this net revenue, \$204.7 million, or 61.3%, was from Mobile product applications, \$63.1 million, or 18.9%, was from IoT product applications, and \$66.2 million, or 19.8%, was from PC product applications. The decrease in net revenue for the three months ended March 31, 2019 was primarily attributable to a decrease in net revenue from Mobile product applications and IoT product applications, partially offset by an increase in net revenue from PC product applications. Net revenue from Mobile product applications decreased as a result of a decline in units sold (which decreased 31.0%), partially offset by higher average selling prices for Mobile product applications (which increased 21.2%). Net revenue from IoT product applications decreased as a result of a decline in units sold (which decreased 24.2%) and lower average selling prices for IoT product applications (which decreased 6.4%). Net revenue from PC product applications increased due to higher average selling prices (which increased 27.3%), partially offset by a decline in units sold for PC product applications (which decreased 13.6%).

Net revenue was \$1,177.1 million for the nine months ended March 31, 2019 compared with \$1,241.8 million for the nine months ended March 31, 2018, a decrease of \$64.7 million, or 5.2%. Of this net revenue, \$741.8 million, or 63.0% was from Mobile product applications, \$236.6 million, or 20.1%, was from IoT product applications, and \$198.7 million, or 16.9%, was from PC product applications. The decrease in net revenue for the nine months ended March 31, 2019, was attributable to a decrease in net revenue from Mobile product applications and IoT product applications, partially offset by an increase in PC product applications. Net revenue from Mobile product applications decreased as a result of a decline in units sold (which decreased 23.8%), partially offset by higher average selling prices for Mobile product applications (which increased 21.7%). Net revenue from IoT product applications decreased primarily as a result of lower average selling prices (which decreased 8.1%), partially offset by an increase in units sold (which increased 0.9%). Net revenue from PC product applications increased as a result of higher average selling prices (which increased 21.1%), partially offset by a decline in units sold (which decreased 12.4%).

Gross Margin

Gross margin as a percentage of net revenue was 34.7%, or \$116.0 million, for the three months ended March 31, 2019, compared with 31.2%, or \$122.9 million, for the three months ended March 31, 2018. Gross margin as a percentage of net revenue was 34.6%, or \$406.7 million, for the nine months ended March 31, 2019, compared with 28.4%, or \$352.5 million for the nine months ended March 31, 2018. The 350 basis point increase and the 620 basis point increase in gross margin for the three and nine months ended March 31, 2019, respectively, was primarily due to a reduction of inventory fair value adjustments recorded in the three and nine months ended March 31, 2018 of \$4.1 million and \$38.0 million, respectively, associated with the Conexant Acquisition and the Marvell Business Acquisition; a reduction in acquired intangibles amortization that was charged to cost of revenue by \$2.0 million and \$6.1 million during the three and nine months ended March 31, 2019, respectively, as compared to the same periods in fiscal 2018 and a favorable mix, including IoT product applications which have higher gross margins. There were no inventory fair value adjustments recorded in the three and nine months ended March 31, 2019.

We regularly introduce new product solutions, many of which have life cycles of less than one year. Further, because we sell our technology solutions in designs that are generally unique or specific to an OEM customer's application, gross margin varies on a product-by-product basis, making our cumulative gross margin a blend of our product-specific designs. As a virtual manufacturer, our gross margin percentage is generally not materially impacted by our shipment volume. We charge losses on inventory purchase obligations and write-downs to reduce the carrying value of obsolete, slow moving, and non-usable inventory to net realizable value (including warranty costs) to cost of revenue.

Operating Expenses

Research and Development Expenses. Research and development expenses decreased \$11.1 million to \$82.6 million for the three months ended March 31, 2019, compared with the three months ended March 31, 2018. The decrease in research and development expenses primarily reflected a \$7.9 million decrease in personnel-related costs which was due to a decrease in average headcount for the three months ended March 31, 2019 as compared to the three months ended March 31, 2018, as a result of our restructuring activities to reduce operating costs; a \$1.6 million decrease in supplies and project specific costs; and a \$0.8 million decrease in travel and related costs.

Research and development expenses decreased \$16.1 million to \$256.9 million for the nine months ended March 31, 2019, compared with the nine months ended March 31, 2018. The decrease in research and development expenses primarily reflected a \$10.4 million decrease in personnel-related costs which was due to a decrease in average headcount for the nine months ended March 31, 2019 as compared to the nine months ended March 31, 2018, as a result of our restructuring activities to reduce operating costs; a \$5.8 million decrease in supplies and project specific costs and a \$2.1 million decrease in facilities and infrastructure related costs; partially offset by a \$6.2 million increase in software licensing and intellectual property costs.

Selling, General, and Administrative Expenses. Selling, general, and administrative expenses decreased \$3.7 million to \$34.2 million for the three months ended March 31, 2019, compared with the three months ended March 31, 2018. The decrease in selling, general, and administrative expenses primarily reflected a \$2.3 million decrease in professional fees and a \$0.5 million decrease in personnel-related costs which was primarily due to a reduction in headcount as a result of our recent restructuring activities to reduce operating costs, partially offset by costs associated with the termination of our former Chief Executive Officer, or CEO, in March 2019, which costs included an accrual of \$2.2 million in severance related costs.

Selling, general, and administrative expenses decreased \$12.0 million to \$103.6 million for the nine months ended March 31, 2019, compared with the nine months ended March 31, 2018. The decrease in selling, general, and administrative expenses reflected a \$12.7 million decrease in personnel-related costs, primarily due to a reduction in headcount as a result of our restructuring activities to reduce operating costs which was partially offset by costs associated with the termination of our former CEO in March 2019, which costs included an accrual of \$2.2 million in severance related costs; a \$3.6 million reduction in professional fees and a \$1.6 million, net, reversal of an accrual for payroll deposit penalties, which were previously accrued and have been reversed due to the completion of a payroll tax audit; partially offset by a \$1.3 million increase in facilities and infrastructure related costs.

Acquired Intangibles Amortization. Acquired intangibles amortization reflects the amortization of intangibles acquired through acquisitions. For further discussion of acquired intangibles amortization, see Note 6 Acquired Intangibles and Goodwill included in the condensed consolidated financial statements contained elsewhere in this Report.

Restructuring Costs. Restructuring costs of \$10.4 million in the nine months ended March 31, 2019 reflect severance costs for restructuring of our operations to reduce ongoing operating costs which commenced in the first quarter of fiscal 2019. The restructuring activities were complete as of March 31, 2019. See Note 14 Restructuring Activities included in the condensed consolidated financial statements contained elsewhere in this Report.

Interest and Other Expense, Net. Interest and other expense, net primarily includes the amortization of debt discount and issuance costs, as well as interest on our debt. The \$4.9 million decrease in interest and other expense, net to \$10.5 million for the nine months ended March 31, 2019, as compared to the nine months ended March 31, 2018, was primarily due to a \$2.8 million impairment recovery on investments as well as a \$1.0 million reduction of amortization of debt issuance costs for a term loan which was paid down and closed in the prior fiscal year. See Liquidity and Capital Resources included in the next section of this Report.

Provision for Income Taxes

On December 22, 2017, the U.S. government enacted comprehensive tax legislation, commonly known as the Tax Cuts and Jobs Act of 2017, or the Act, which significantly reformed the Internal Revenue Code of 1986, as amended. The Act contains broad and complex changes to corporate taxation, including, in part, reduction of the U.S. federal corporate tax rate from 35% to 21%, requires companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously considered permanently reinvested, and creates new taxes on certain foreign-sourced earnings. U.S. federal tax law requires that taxpayers with a fiscal year that spans the effective date of a tax rate change to calculate a blended tax rate based on the pro rata number of days in the fiscal year before and after the effective date. As our accounting and tax year is the fiscal period ending on the last Saturday in June, our U.S. federal tax rate for fiscal 2018 was a days-weighted blended tax rate of 28.17%. For fiscal 2019 and subsequent tax years, our U.S. federal tax rate is 21%.

In fiscal 2018, we recognized a provisional tax expense of \$41.4 million, related to the tax impact of the Act, of which an expense of \$44.1 million relates to the one-time transition tax and a benefit of \$2.7 million relates to remeasurement of deferred tax at the new tax rate. The one-time transition tax was based on our post-1986 foreign earnings and profits, or E&P, which we previously excluded from U.S. income taxes as we considered such earnings to be indefinitely reinvested overseas. The one-time transition tax was applied at a 15.5% tax rate on cash assets and an 8% tax rate for other specified assets. We were able to utilize the research credit carryforward, resulting in a net one-time transition tax impact of \$11.9 million on the income tax payable. During our second fiscal quarter ended December 31, 2018, based on additional analysis of technical guidance, we recognized a non-discrete tax expense of \$1.4 million, which was included in the annual effective tax rate, and a discrete benefit of \$0.2 million, both of which relate to the limitation on deduction of executive officer compensation.

Staff Accounting Bulletin 118 allows companies to record provisional amounts and recognize the effect of the tax law during a measurement period. The measurement period ended in the second quarter of our fiscal 2019. As of March 31, 2019, we have finalized our accounting for the tax impact of the Act and there were no material adjustments recorded in our provisional amounts. However, further technical guidance related to the Act, including final regulations on a broad range of topics, is expected to be issued and, as such, if our interpretation and final accounting are inconsistent with future regulations and guidance, we will recognize the impact as a discrete item in the period that such guidance is issued.

The Global Intangible Low-Tax Income, or GILTI, which is a provision under the Act, imposes a tax on foreign income in excess of a deemed return on tangible assets of foreign corporations. GILTI requires an accounting policy election of either (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current period expense when incurred or (2) factoring such amounts into the measurement of deferred taxes. We elected to treat GILTI as a current period cost and recognize the impact in the period when it is incurred.

We account for income taxes under the asset and liability method. The provision for income taxes recorded in interim periods is recorded by applying the estimated annual effective tax rate to year-to-date income before provision for income taxes, excluding the effects of significant unusual or infrequently occurring discrete items. The tax effects of discrete items are recorded in the same period that the related discrete items are reported and results in a difference between the actual effective tax rate and the estimated annual effective tax rate.

The benefit for income taxes of \$15.3 million and \$3.9 million for the three months ended March 31, 2019 and 2018, respectively, represented estimated federal, foreign, and state income taxes. The effective tax rate for the three months ended March 31, 2019 diverged from the combined U.S. federal and state statutory tax rate primarily because of foreign withholding taxes, the impact of accounting for qualified stock options, foreign deemed-paid taxes, foreign income taxed at higher tax rates, and GILTI, partially offset by the benefit of research credits, foreign tax credits and foreign-derived intangible income deduction. The effective tax rate for the three months ended March 31, 2018, diverged from the combined U.S. federal and state statutory tax rate, primarily because of the impact of the benefit of research credits and excess share-based compensation deductions, partially offset by foreign withholding taxes, nondeductible amortization, the impact of accounting for qualified stock options, and foreign income taxed at higher tax rates.

The benefit for income taxes of \$8.1 million and provision for income taxes of \$52.6 million for the nine months ended March 31, 2019, and 2018, respectively, represented estimated federal, foreign, and state income taxes. The effective tax rate for the nine months ended March 31, 2019 diverged from the combined U.S. federal and state statutory tax rate primarily because of foreign withholding taxes, the impact of accounting for qualified stock options, foreign deemed paid taxes, foreign income taxed at higher tax rates and GILTI, partially offset by the benefit of research credits, release of reserves related to uncertain tax positions, the impact of net shortfalls in share-based compensation deduction, foreign tax credits and foreign-derived intangible income deduction. The effective tax rate for the nine months ended March 31, 2018 diverged from the combined U.S. federal and state statutory tax rate primarily because of the impact of the one-time transition tax on E&P, the impact of the reduction in the U.S. federal tax rate on our net deferred tax assets, foreign withholding taxes, nondeductible amortization, the impact of accounting for qualified stock options, and foreign income taxed at higher tax rates, partially offset by benefits from research credits.

In July 2018, the U.S. Ninth Circuit Court of Appeals reversed the 2015 decision of the U.S. Tax Court in *Altera Corp. v. Commissioner* which found that the Treasury regulations addressing the treatment of stock-based compensation in a cost-sharing arrangement with a related party were invalid. In August 2018, the U.S. Ninth Circuit Court of Appeals withdrew its July 2018 opinion. The reconstituted panel has not issued an opinion on this appeal. As our tax filing position is consistent with the Treasury regulations, we determined no adjustment to our financial statements is required, however, due to the uncertainties with respect to the ultimate resolution, we will continue to monitor developments in this case

Liquidity and Capital Resources

Our cash and cash equivalents were \$323.8 million as of March 31, 2019, compared with \$301.0 million as of June 30, 2018, an increase of \$22.8 million. The increase primarily reflected \$110.8 million of net cash provided by operating activities, partially offset by \$77.3 million used to repurchase 1,850,000 shares of our common stock and \$17.7 million used for the purchase of property and equipment. At this time, we consider earnings of our foreign subsidiaries indefinitely invested overseas and have made no provision for income or withholding taxes, other than the one-time transition tax described above under "Management's Discussion and Analysis of Financial Condition and Results of Operations—Provision for Income Taxes," that may result from a future repatriation of those earnings. As of March 31, 2019, \$254.9 million of cash and cash equivalents was held by our foreign subsidiaries. If these funds are needed for our operations in the United States, we may be required to accrue and pay certain state and foreign taxes to repatriate these funds.

Cash Flows from Operating Activities. Operating activities during the nine months ended March 31, 2019 generated \$110.8 million compared with \$137.1 million net cash generated during the nine months ended March 31, 2018. For the nine months ended March 31, 2019, the primary operating activities were adjustments for non-cash charges of \$130.2 million, partially offset by a net change in operating assets and liabilities of \$42.7 million. The net change in operating assets and liabilities was primarily attributable to a \$35.8 million decrease in accounts payable, a \$21.9 million increase in inventory, a \$6.8 million reduction in acquisition related obligations; and a \$9.6 million reduction in income taxes payable; partially offset by a \$27.5 million decrease in accounts receivable and a \$13.6 million increase in other accrued liabilities. From June 30, 2018 to March 31, 2019, our days sales outstanding increased

from 67 days to 72 days due to a larger percentage of the quarter's net revenue occurring late in the March 31, 2019 quarter compared with a smaller percentage of the quarter's net revenue occurring late in the June 30, 2018 quarter. Our annual inventory turns declined from seven to five. For the nine months ended March 31, 2018, the primary operating activities were adjustments for non-cash charges of \$176.2 million; a \$83.5 million net change in operating assets and liabilities, partially offset by a net loss of \$122.6 million. The net change in operating assets and liabilities was primarily attributable to a \$102.2 million decrease in inventory; a \$20.9 million decrease in prepaid expenses and other current assets; and an \$8.2 million decrease in accounts receivable, net; partially offset by a \$15.9 million decrease in accounts payable; a \$15.4 million decrease in accrued compensation; an \$11.1 million decrease in other accrued liabilities and a \$7.2 million decrease in other assets. From June 30, 2017 to March 31, 2018, our days sales outstanding increased slightly from 54 days to 59 days. Our annual inventory turns remained flat at nine over this same period.

Cash Flows from Investing Activities. Cash used in investing activities during the nine months ended March 31, 2019 consisted of \$17.7 million for purchases of property and equipment, partially offset by \$2.8 million of proceeds from sales of investments. Cash used in investing activities during the nine months ended March 31, 2018 consisted of \$396.4 million used for the acquisition of businesses; \$27.5 million for the purchase of property and equipment; and \$7.7 million for the purchase of intangible assets.

Cash Flows from Financing Activities. Net cash used in financing activities for the nine months ended March 31, 2019 was \$73.1 million compared with \$210.0 million provided by financing activities for the nine months ended March 31, 2018. Net cash used in financing activities for the nine months ended March 31, 2019 was primarily related to \$77.3 million used to repurchase 1,850,000 shares of our common stock. Net cash provided by financing activities for the nine months ended March 31, 2018 primarily related to \$514.5 million of proceeds from the issuance of convertible debt, partially offset by \$220.0 million used for the payment of debt, and \$93.6 million used to repurchase 1,698,400 shares of our common stock.

Common Stock Repurchase Program. As of March 31, 2019, our board has cumulatively authorized \$1.3 billion for our common stock repurchase program, which will expire in July 2019. The program authorizes us to purchase our common stock in the open market or in privately negotiated transactions, depending upon market conditions and other factors. The number of shares purchased and the timing of purchases are based on the level of our cash balances, general business and market conditions, and other factors. Common stock purchased under this program is held as treasury stock. From April 2005 through March 31, 2019, we purchased 29,489,876 shares of our common stock in the open market for an aggregate cost of \$1.2 billion. Treasury shares purchased prior to August 28, 2008 were not subject to the stock split on that date. During the nine months ended March 31, 2019, we repurchased 1,850,000 shares of our common stock for a total cost of \$77.3 million. As of March 31, 2019, the remaining available authorization under our common stock repurchase program was \$148.8 million.

Convertible Debt

On June 20, 2017, we entered into a purchase agreement, or the Purchase Agreement, with Wells Fargo Securities, LLC, as representative of the initial purchasers named therein, collectively, the Initial Purchasers, pursuant to which we agreed to issue and sell, and the Initial Purchasers agreed to purchase, \$500 million aggregate principal amount of our 0.50% convertible senior notes due 2022, or the Notes, in a private placement transaction. Pursuant to the Purchase Agreement, we also granted the Initial Purchasers a 30-day option to purchase up to an additional \$25 million aggregate principal amount of Notes, which was exercised in full on June 21, 2017. The net proceeds, after deducting the Initial Purchasers' discounts, were \$514.5 million, which included proceeds from the Initial Purchasers' exercise of their option to purchase additional Notes. We received the net proceeds on June 26, 2017, which we used to repurchase shares of our common stock, retire our outstanding bank debt, and provide additional cash resources to fund the Conexant Acquisition and Marvell Business Acquisition.

The Notes bear interest at a rate of 0.50% per year. Interest has accrued since June 26, 2017 and is payable semi-annually in arrears, on June 15 and December 15 of each year, beginning on December 15, 2017. The Notes are senior unsecured obligations and rank senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the Notes; equal in right of payment to any of our liabilities that are not so subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities (including trade payables) of our subsidiaries.

The Notes mature on June 15, 2022, or the Maturity Date, unless earlier repurchased, redeemed or converted.

Holders may convert all or any portion of their Notes, in multiples of \$1,000 principal amounts, at their option at any time prior to the close of business on the business day immediately preceding March 15, 2022 under certain defined circumstances.

On or after March 15, 2022 until the close of business on the business day immediately preceding the Maturity Date, holders may convert all or any portion of their Notes, in multiples of \$1,000 principal amounts, at the option of the holder. Upon conversion, we will pay or deliver, at our election, shares of common stock, cash, or a combination of cash and shares of common stock.

The conversion rate for the Notes is initially 13.6947 shares of common stock per \$1,000 principal amount of Notes (equivalent to an initial conversion price of approximately \$73.02 per share of common stock). The conversion rate is subject to adjustment in certain circumstances.

Upon the occurrence of a fundamental change (as defined in the Notes indenture), holders of the Notes may require us to repurchase for cash all or a portion of their Notes at a fundamental change repurchase price equal to 100% of the principal amount of the Notes to be repurchased, plus accrued and unpaid interest up to, but excluding, the fundamental change repurchase date.

We may not redeem the Notes prior to June 20, 2020. We may redeem for cash all or any portion of the Notes, at our option, on or after June 20, 2020, if the last reported sale price of our common stock, as determined by us, has been at least 130% of the conversion price then in effect for at least 20 trading days (whether or not consecutive) during any 30 consecutive trading day period (including the last trading day of such period) ending on, and including, the trading day immediately preceding the date on which we provide notice of redemption at a redemption price equal to 100% of the principal amount of the Notes to be redeemed, plus accrued and unpaid interest up to, but excluding, the redemption date. Our policy is to settle the principal amount of our Notes with cash upon conversion or redemption.

Bank Credit Facility. We have a \$200.0 million revolving credit facility, which includes a \$20 million sublimit for letters of credit and a \$20 million sublimit for swingline loans. Under the terms of the revolving credit facility, or the Agreement, we may, subject to the satisfaction of certain conditions, request increases in the revolving credit facility commitments in an aggregate principal amount of up to \$100 million to the extent existing or new lenders agree to provide such increased or additional commitments, as applicable. Proceeds under the revolving credit facility are available for working capital and general corporate purposes. As of March 31, 2019, there was no balance outstanding under the revolving credit facility.

The revolving credit facility is required to be repaid in full on the earlier of (i) September 27, 2022 and (ii) the date 91 days prior to the Maturity Date of the Notes if the Notes have not been refinanced in full by such date. Debt issuance costs of \$2.3 million are amortizing over 60 months.

Our obligations under the Agreement are guaranteed by the material domestic subsidiaries of our Company, subject to certain exceptions (such material subsidiaries, together with our Company, collectively, the Credit Parties). The obligations of the Credit Parties under the Agreement and the other loan documents delivered in connection therewith are secured by a first priority security interest in substantially all of the existing and future personal property of the Credit Parties, including, without limitation, 65% of the voting capital stock of certain of the Credit Parties' direct foreign subsidiaries, subject to certain exceptions.

The revolving credit facility bears interest at our election of a Base Rate plus an Applicable Margin or LIBOR plus an Applicable Margin. Swingline loans bear interest at a Base Rate plus an Applicable Margin. The Base Rate is a floating rate that is the greater of the Prime Rate, the Federal Funds Rate plus 50 basis points, or LIBOR plus 100 basis points. The Applicable Margin is based on a sliding scale which ranges from 0.25 to 100 basis points for Base Rate loans and 100 basis points to 175 basis points for LIBOR loans. We are required to pay a commitment fee on any unused commitments under the Agreement which is determined on a leverage-based sliding scale ranging from 0.175% to 0.25% per annum. Interest and fees are payable on a quarterly basis.

Under the Agreement, there are various restrictive covenants, including three financial covenants which limit the consolidated total leverage ratio, or leverage ratio, the consolidated interest coverage ratio, or interest coverage ratio, a restriction which places a limit on the amount of capital expenditures that may be made in any fiscal year, a restriction that permits up to \$50 million per fiscal quarter of accounts receivable financings, and sets the Specified Leverage Ratio. The leverage ratio is the ratio of debt as of the measurement date to earnings before interest, taxes, depreciation and amortization, or EBITDA, for the four consecutive quarters ending with the quarter of measurement. The current leverage ratio shall not exceed 3.50 to 1.00 provided that for the four fiscal quarters ending after the date of a material acquisition, such maximum leverage ratio shall be adjusted to 3.75 to 1.00, and thereafter, shall not be more than 3.50 to 1.00. The interest coverage ratio is EBITDA to interest expense for the four consecutive quarters ending with the quarter of measurement. The interest coverage ratio must not be less than 3.50 to 1.0 during the term of the Agreement. The Specified Leverage Ratio is the ratio used in determining, among other things, whether we are permitted to make dividends and/or prepay certain indebtedness, at a fixed ratio of 3.00 to 1.00.

\$100 Million Shelf Registration. We have registered an aggregate of \$100.0 million of common stock and preferred stock for issuance in connection with acquisitions, which shares will generally be freely tradeable after their issuance under Rule 145 of the Securities Act unless held by an affiliate of the acquired company, in which case such shares will be subject to the volume and manner of sale restrictions of Rule 144 of the Securities Act.

Liquidity and Capital Resources. We believe our existing cash and cash equivalents, anticipated cash flows from operating activities, and available credit under our revolving credit facility will be sufficient to meet our working capital and other cash

requirements for at least the next 12 months, and our debt service obligations. Our future capital requirements will depend on many factors, including our revenue, the timing and extent of spending to support product development efforts, costs associated with restructuring activities net of projected savings from those activities, costs related to protecting our intellectual property, the expansion of sales and marketing activities, timing of introduction of new products and enhancements to existing products, costs to ensure access to adequate manufacturing, costs of maintaining sufficient space for our workforce, the continuing market acceptance of our product solutions, our common stock repurchase program, and the amount and timing of our investments in, or acquisitions of, other technologies or companies. Further equity or debt financing may not be available to us on acceptable terms or at all. If sufficient funds are not available or are not available on acceptable terms, our ability to take advantage of business opportunities or to respond to competitive pressures could be limited or severely constrained.

Based on our ability to access our cash and cash equivalents, our expected operating cash flows, and our other sources of cash, we do not anticipate the need to remit undistributed earnings of our foreign subsidiaries to meet our working capital and other cash requirements, but if we did remit such earnings, we may be required to accrue and pay certain state and foreign taxes to repatriate these funds, which would adversely impact our financial position and results of operations.

Contractual Obligations and Commercial Commitments

Our material contractual obligations and commercial commitments as of March 31, 2019 were as follows (in millions):

	Remaining in Fiscal Year 2019	Fiscal Year 2020	Fiscal Year 2021	Fiscal Year 2022	Fiscal Year 2023	Fiscal Year 2024	Thereafter	Total
Long-term debt (1)	\$ 1.3	\$ 2.6	\$ 2.6	\$ 527.6	\$ -	\$ -	\$ -	\$ 534.1
Leases	3.0	7.6	3.0	0.9	0.3	0.1	-	14.9
Purchase obligations and other commitments (2)	36.0	16.5	6.2	-	-	-	-	58.7
Transition tax payable (3)	-	1.0	1.0	1.0	1.0	1.8	5.1	10.9
Total	\$ 40.3	\$ 27.7	\$ 12.8	\$ 529.5	\$ 1.3	\$ 1.9	\$ 5.1	\$ 618.6

- (1) Represents the principal and interest payable through the maturity date of the underlying contractual obligation.
- (2) Purchase obligations and other commitments include payments due for inventory purchase obligations with contract manufacturers, long-term software tool licenses, and other licenses.
- (3) Represents the tax amount for the transition tax liability associated with our deemed repatriation of accumulated foreign earnings as a result of the enactment of the Act into law on December 22, 2017.

The amounts in the table above exclude unrecognized tax benefits of \$25.3 million. As of March 31, 2019, we were unable to make a reasonably reliable estimate of when cash settlement with a taxing authority may occur in connection with our gross unrecognized tax benefit.

Recently Issued Accounting Pronouncements Not Yet Effective

In February 2016, the Financial Accounting Standards Board established Topic 842, Leases (or Topic 842), by issuing an Accounting Standard Update (or ASU) on Leases. Topic 842 was subsequently amended by several ASUs. The new standard requires organizations that lease assets with lease terms of more than 12 months to recognize assets and liabilities for the rights and obligations created by those leases on their balance sheets. It also requires new qualitative and quantitative disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases. The new standard will be effective for us beginning in the first quarter of our fiscal year 2020, with early adoption permitted. The standard is required to be adopted using a modified retrospective approach and allows for the adoption of the standard to be applied at the beginning of the most recent fiscal year or at the beginning of the earliest year presented. We expect to adopt this ASU at the beginning of our fiscal year 2020, on June 30, 2019. The new standard provides a number of optional practical expedients in transition and we expect to elect the package of practical expedients, which permits us not to reassess under the new standard our prior conclusions about lease identification, lease classification and initial direct costs. We also expect to elect the use-of-hindsight practical expedient, however, we do not expect to elect the practical expedient pertaining to land easements as it is not applicable to us. We continue to evaluate the potential impact of adoption of this ASU on our consolidated financial statements and currently expect that our operating lease commitments will be subject to the new standard and recognized as right-of-use assets and operating lease liabilities upon adoption of this standard, which will increase the total assets and total liabilities that are reported relative to such amounts prior to adoption.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of March 31, 2019, our market risk related to interest rates on our cash and cash equivalents, and foreign currency exchange risks has not changed materially from the risks disclosed in Item 7A of our Annual Report on Form 10-K for the fiscal year ended June 30, 2018.

Variable Interest Rate Risk

As of March 31, 2019, there was no balance outstanding under our revolving credit facility. The revolving credit facility bears interest at our election of a Base Rate plus an Applicable Margin or LIBOR plus an Applicable Margin. Swingline loans bear interest at a Base Rate plus an Applicable Margin. The Base Rate is a floating rate that is the greater of the Prime Rate, the Federal Funds Rate plus 50 basis points, or LIBOR plus 100 basis points. The Applicable Margin is based on a sliding scale which ranges from 0.25 to 100 basis points for Base Rate loans and 100 basis points to 175 basis points for LIBOR loans. We are required to pay a commitment fee on any unused commitments under the Agreement, which is determined on a leverage-based sliding scale ranging from 0.175% to 0.25% per annum. Interest and fees are payable on a quarterly basis.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are controls and procedures designed to reasonably ensure that information required to be disclosed in our reports filed under the Exchange Act, such as this Report, are recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and to reasonably ensure that such information is accumulated and communicated to our management, including our Principal Executive Officer, and our Interim Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including our Principal Executive Officer and Interim Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Report. Based on this evaluation, our Principal Executive Officer and Interim Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Report.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the three months ended March 31, 2019 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are party to various litigation matters and claims arising from time to time in the ordinary course of business. While the results of such matters cannot be predicted with certainty, we believe that the final outcome of such matters will not have a material adverse effect on our business, financial condition, results of operations or cash flows. For further information regarding current legal proceedings, see Note 8 Indemnifications, Contingencies and Legal Proceedings to the condensed consolidated financial statements contained elsewhere in this Report.

ITEM 1A. RISK FACTORS

There are no material changes to the Company's risk factors set forth in Part I, Item 1A, "Risk Factors," of our Annual Report on Form 10-K for the fiscal year ended June 30, 2018.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

As announced on July 24, 2017, our Board of Directors has cumulatively authorized \$1.3 billion for our common stock repurchase program, which expires at the end of July 2019. As of March 31, 2019, the remaining amount authorized for the repurchase of our common stock was \$148.8 million. There were no repurchases under our common stock repurchase program during the three-month period ended March 31, 2019.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

SYNAPTICS INCORPORATED

Date: May 9, 2019

By: /s/ Alex Wong
Name: Alex Wong
Title: Principal Executive Officer

Date: May 9, 2019

By: /s/ Kermit Nolan
Name: Kermit Nolan
Title: Corporate Vice President, Chief Accounting Officer
and Interim Chief Financial Officer

February 7, 2019

Kermit Nolan San
Jose, CA

Dear Kermit:

I am pleased to inform you of your promotion to the position of Corporate Vice President & Chief Accounting Officer and Interim CFO.

Effective February 7, 2019, your annualized base salary will be \$340,000, which is a 25% increase.

For Synaptics' fiscal year 2019, your annual incentive target will be prorated per the schedule below:

- July 1, 2018 — February 6, 2019: 40% of your base salary
- February 7, 2019 — June 29, 2019: 50% of your base salary

Payment of the incentive will be based first on company-wide performance, followed by department and individual goals annually. Payment of any incentive amount is ultimately at the discretion of Synaptics and is not guaranteed.

Subject to the approval of the Compensation Committee of the Board of Directors of the Company or their delegate, you will receive 12,500 Restricted Stock Units (RSUs) in February. Your RSUs shall vest as follows: 1/3 of the RSUs shall vest one year from vest base date, and 1/3 of the RSUs will vest each year thereafter on the anniversary of the delivery date such that your entire award will be fully vested in the calendar quarter of the third anniversary of the grant date.

I look forward to your continued contributions towards the success of Synaptics.

Sincerely,
/s/ RA Bergman
Rick Bergman
CEO

ACCEPTED AND AGREED TO
This 7th day of February, 2019

Signature: /s/ Kermit Nolan

Certification of Principal Executive Officer

I, Alex Wong, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Synaptics Incorporated;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Certification of Chief Financial Officer

I, Kermit Nolan, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Synaptics Incorporated;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
